LEADERSHIP FOR ALL

Students share their experiences with CLL

"Not only do I have more confidence in myself as a leader, my peers and coworkers have noticed the change within me as well. Throughout the course of the program I have found myself speaking up more at work and school, I am so grateful for all that I have learned thus far, and are excited to continue to implement what I’ve learned and see myself becoming a stronger leader in the spaces and communities that I am a part of.”

– Brenda Teiko (SLDP 2018)

"The skills I learned were invaluable. Learning how to work and cooperate with people, other than just leading with how I want things done taught me how to understand other people’s perspectives to work towards a common goal.”

– Brandon Vernoy (SLDP 2018, Intern 2018-2020)

"Just because I was aware of certain leadership topics did not mean that I knew how to connect them in my life. The moment I allowed myself to let go of the idea I knew everything, I was able to actually reflect and change things about myself that stopped me from being a good leader. I had to let go of my ego and allow myself to realize what I thought I already knew.”

Leadership... can be taught and learned is interdisciplinary, ethical, and just fuses theory and practice is a process, not a position is collaborative and inclusive can be applied by everyone, everywhere serves the common good

98% OF STUDENTS indicated that learning increased in workshops from Fall 2017 - Spring 2019

791 NEW LEADERS served between Fall 2017 - Spring 2019 across all programs

100% COMPLETION RATE in both SLDP and DLDP certificate programs in 2018

Defining Leadership

Leadership is about having purpose. Both as an individual and as a group, in order to make a positive difference. Leadership can only occur when each of the following components are fully functioning together: Self, Others, and Context. The circular figures (see diagram on right) represent the continuous process of growth, learning, and the practice of leadership.

“I learned that being a leader is not having power. Being a leader is caring for others, supporting others, and working with others to make a change. Being a leader is caring, it’s something that’s acquired through time, through practice, and through working with others or learning from others.”

–Ivan Rocha (DLDP 2019)

Leadership Coaching

CLL Staff are available to help you explore individual goals, interests, areas of growth, and leadership decisions or dilemmas. Rather than being prescriptive or telling you “what to do,” we are here to serve as a guide, support, and sounding board to help you arrive at a course of action.
Defining Leadership
Leadership is about having purpose, both as an individual and as a group, to intentionally make a positive difference. Leadership can only occur when each of the following components are fully functioning together: Self, Others, and Context. The circular figures (see diagram on right) represent the continuous process of growth, learning, and the practice of leadership.

“I learned that being a leader is not having power. Being a leader is caring for others, supporting others, and working with others to make a change. Being a leader is not innate, it’s something that’s acquired through time, through practice, and through working with others or learning from others.” - Ivan Rocha (DLDP 2019)

Aggies Leading the Way! Conference
We host an annual undergraduate leadership conference called “Aggies Leading the Way!” With workshops, keynote speakers, and networking opportunities, the event helps you reach your leadership potential and practice your professional skills.

Certificate Programs
Our two-2 quarter certificate programs offer unique opportunities to practice and reflect deeply on distinct focus areas of leadership. Both include weekly 1-unit seminars, community engagement projects, and opportunities to build peer and mentor connections. Upon successful completion of all program requirements, you will receive a certificate which is signed by our Chancellor and Vice Provost and Dean for Undergraduate Education. Complete just one or both!

Leadership Coaching
CLL Staff are available to help you explore individual goals, interests, areas of growth, and leadership decisions or dilemmas. Rather than being prescriptive or telling you ‘what to do’, we are here to serve as a guide, support, and sounding board to help you arrive at a course of action.

Quarterly Workshops
Our Leadership Essentials Workshop Series (LEWS) covers a variety of topics related to leadership and professional development. These workshops encourage an environment for you to network with peers and explore new ideas. You are welcome to attend as few or as many workshops as you like!

NEXT LEVEL EXPERIENCES
Immerse yourself in a community of leaders

Leadership Competition
This 12-week program creates a dynamic practice field that stretches your leadership capabilities. CLC is a yearly competition where a small group of students are coached to compete against other US colleges and universities. Competitions consist of a series of timed challenges that require communication, problem-solving, creative thinking, cooperative, and cognitive endurance skills to compete.

Internship Program
Go ‘behind-the-scenes’ and work with others to create, influence, and drive CLL’s mission, programs, and events. Internships allow you to demonstrate and develop your own capacity for leadership while supporting student participants in doing the same. All positions are paid and require a 3-quarter commitment.

WHO WE ARE
(Our Mission)

We welcome students from all majors, class levels, and degrees of leadership experience who wish to enhance their personal lives and the lives of others. We offer a variety of free events, programs, and resources. We provide unique opportunities to formally learn about leadership and professionalism, while focusing individual, hands-on training that will assist you for a lifetime.
