UC DAVIS

Leading through the use of Technology

4 C'S OF A
GREAT
TEAM MEMBER
MARK SANBORN

What issues do you face when working in a team?

How have you utilized technology to solve this issue?

What do you use?

1. Positive
2. Negative
3. Personal Experience

Frustrations of Introducing a New Platform

- Members may be unwilling to make the change
  - Various members of your group may react differently to the introduction of technology platforms
- The Learning Curve
- Assumptions about technology access

Positives of Using Technology in Project Management

- Improved group communication
- All members of the group can easily access details about a designated task
- Data Backup
- Instant Communication
- Deadline Reminders
- Time Stamps

Negatives of Using Technology in Project Management

- May require members to have wifi connection to submit projects
  - The Digital Divide
- Financial Concerns for long term usage
- Less time interaction with the team in person

Thank you!
